DELIVERING ON OUR COMMITMENT TO ESG

We conduct business and operations in a safe and ethical manner. Our values lead us to constantly improve our performance as a safe and efficient, environmentally conscious, and results-oriented operator.

Environment

Delivering great results over long term requires consistent efforts to minimize our environmental footprint

- We strive to always have gas gathering facilities in place to **avoid routine flaring and venting of gas**
- We conduct **semi-annual leak inspections** through an independent third party on all wells completed
- We **minimize emissions** through the use of grid electric power when available, piping our produced water, and otherwise limiting miles driven
- We **develop spill prevention and control plans** for all storage facilities, and conduct annual inspections per the guidelines of a third party professional engineer
- We **manage our waste streams responsibly** and perform audits of major disposal facilities

Society

We put people first – ensuring the safety of our neighbors and co-workers, investing in our communities, and promoting wellness

- We have a **zero-incident safety culture**
 - Comprehensive, behavior-based safety program
 - Companywide safety awareness
 - Contractor management
- We are a **good neighbor** in the communities where we live and work
- We **invest in our communities** through local businesses and charities
- We provide **professional and personal development** to our employees
- We support **employee wellness** and provide flexible work arrangements for a healthy work-life balance

Governance

Our culture fosters integrity and accountability through regular and transparent communication

- Our Board of Directors has been **purposefully composed and organized**
 - Direct shareholder representation
 - Independent directors with deep industry experience
- We **require independent thought**, fresh contributions and relevant experience from our Directors
- We ensure key financial, operational and value-oriented metrics are **subjected to systematic independent scrutiny**
- Our **compensation is tied to operational, financial and ESG** performance
- Our **employees have a voice** through regular two-way communication with senior management
